July 13 - 14, 2016 | 9am - 4pm

Cost: \$300 for Industrial Full Attendee
\$50 for Students (if space is available)
Does not include lunch

Description:

The course will include the basics of Thermal Analysis with lectures on differential scanning calorimetry (DSC), thermogravimetric analysis (TGA), and dynamic mechanical analysis (DMA). The sessions held on July 14 will have hands-on instruction by the vendors, with demonstrations on calibration and how to run experiments.

Participating Vendors: TA Instruments, Mettler Toledo, & NETZSCH Instruments
