Executive Summary

Dr. Gillespie has served the University of Delaware Center for Composite Materials (UD-CCM) in several roles since 1981, achieving the position of Director in 1996. Dr. Gillespie is also the Donald C. Phillips Professor of Civil and Environmental Engineering and holds joint appointments in the departments of Materials Science and Engineering, Mechanical Engineering and Electrical and Computer Engineering.

As Director, Dr. Gillespie has established an internationally recognized center of excellence in composites. He has created an intellectually stimulating and highly interdisciplinary research environment for affiliated faculty, research professionals, graduate and undergraduate students, postdoctoral fellows, visiting scholars and industry partners to collaborate among themselves as well as with the Center's government and industrial sponsors. Dr. Gillespie has established a dedicated state-of-the art composites facility and maintains an open-lab philosophy to encourage participation in research and educational activities. Under his leadership, he has nearly doubled the size of UD-CCM with 58,000 sq ft of laboratory space housed in two facilities housing more than $25M in equipment. On campus, basic and applied research is conducted in our Composites Manufacturing Science Laboratory. Off-campus, larger scale manufacturing and prototyping is conducted at his Application and Technology Transfer Laboratory. As Director, Dr. Gillespie directly supervises approximately 31 research professionals, administration and technical support staff and manages an annual research expenditure of $8-10M derived from contracts and grants.

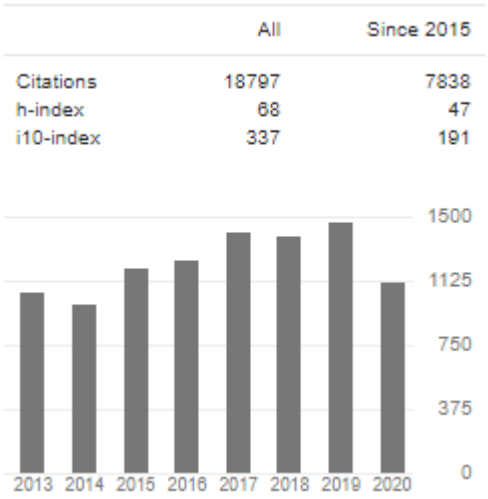
Building on traditional strengths and by funding new initiatives, Dr. Gillespie has engaged more than 45 affiliated faculty from 5 colleges that advise undergraduate, graduate and post-doctoral students in exciting new composite research areas of basic research. Dr. Gillespie has maintained a commitment to undergraduate education and research by continuing the CCM undergraduate research program with more than 57 students and over 60 researchers have been involved in CCM activities in 2019.

In 1996, Dr. Gillespie assumed leadership of the Center's University-Industry Consortium, "Application of Composite Materials to Industrial Products," with only three members. Today, membership exceeds 40 companies. To meet the needs for applied research and technology transfer, Dr. Gillespie has hired a full-time research professional staff with a wide range expertise in composites to work closely with our industrial and government sponsors as well as the faculty and students. Dr. Gillespie has worked diligently to maintain an optimum balance of basic and applied research to ensure that CCM is not only at the forefront of the science of composites but also able to solve real-world engineering problems to benefit the Center's sponsors. Dr. Gillespie has established major research programs through numerous university-industry-government partnerships.

Dr. Gillespie is also an accomplished researcher and educator. Dr. Gillespie has been the Principal Investigator (PI) or co-PI on five prestigious Centers of Excellence since 1996. He was the PI of two Army Research Laboratory (ARL) Centers of Excellence (1996-2014), one in multifunctional composite materials and the other in mechanics and performance of composites. He was also co-PI on an Office of Naval Research (advanced materials and intelligent processing) established in 1997-2014. The fourth was funded by the Federal Aviation Association (advanced composite materials for commercial aircraft) as part of the Wichita State University team. In 2012, ARL established a Cooperative Research Alliance with Hopkins, Rutgers and Cal Tech and UD on Materials Under Extreme Dynamic Environments of which Dr. Gillespie is a member of the core management committee and UD's PI. This major center was

renewed this year through 2022. Overall, Dr. Gillespie has received over $180 million as PI/Co-PI and supervised as Director $223 million from industry and government sources to support his research and Center activities.

Dr. Gillespie has an impressive record of scholarship conducting high quality basic and applied research in collaboration with his students and colleagues from academia, government and industry. He has authored/co-authored more than 911 publications in composites science and technology including 19 book/book chapters, 23 patents, 350 refereed journal papers and 519 proceeding papers (also presented at the conferences). His work has been highly cited by his peers with more than 18,797 citations and an h-index of 68 and i10-indes of 337 *(Google Scholars 10/26/20).*



Updated: 10/2020

As a teacher and mentor, he has advised more than 46 PhD and 57 master's students. His former students have gone on to successful careers in academia (19 teaching at other universities), government, and industry. He was chosen as the recipient of the Faculty Advisors Award from SAMPE in 2001. He has also been proactive as a mentor to Historically Black Colleges and Universities as a Member of the National Science Foundation Task Force for Development of the first Doctoral Program at Tuskegee University (an HBCU). Today, he is an adjunct faculty member at Tuskegee. He also served as Chair of the external advisory board for the NSF CREST program for Southern University (a Minority Institution). He has hosted faculty and students from both HBCU schools at UD-CCM. In addition to his graduate students, Dr. Gillespie's research group also includes 15 research faculty, professionals and technicians.

Dr. Gillespie has served as a member of the prestigious and influential National Research Council Board on Manufacturing and Engineering Design, and Chair of the National Materials Advisory Board Committee on High-Performance Structural Fibers for Advanced Polymer-Matrix Composites. Dr. Gillespie has been Editor of the Journal of Thermoplastic Composite Materials since 1993, and he serves on numerous editorial boards. Over the past few years, Dr. Gillespie was the Co-Chair of the 24th Technical Conference of the American Society for Composites and the Canadian Association for Composite Structures and Materials, Chair of the International Advisory Committee for the Second World Conference on 3D Fabrics and Their Applications, Co-Chair, TEXCOMP9, International Conference on Textile Composites and International Co-Chair of the 13th US-Japan Conference on Composite Materials, held in Tokyo, Japan. He has been a member of Society of Plastics Engineers since 1991 as

member and secretary of the Steering Committee of the Special Interest Group on Joining of Plastics and Composites (1991-2002) and currently serves on the Board of Directors for SPE Composites Division.

Dr. Gillespie's contributions have been recognized through a number of honors and awards. He was a co-recipient of the U.S. Army's Paul A. Siple Memorial Award, announced at the 21st Army Science Conference in 1998, for his research on processing of multifunctional armor materials. His work on diffusion-enhanced adhesion for improved ballistics was cited in 1997 in the Department of Defense (DOD) booklet, Defense Basic Research-Rapid Transition from the Laboratory to the Field. The technology was one of only 17 examples of basic research recognized throughout the entire DOD. He was the first academic recipient of the prestigious Jud Hall Composites Manufacturing Award bestowed in 2000 by the Composites Manufacturing Association of the Society of Manufacturing Engineers. His research team was selected in 2004 by the American Composites Manufacturing Association for the Best of Show Award recognizing projects that are superior to all others in manufacturing, design, process innovation and use of composite materials. In 2008, he was acknowledged as the Most Cited Author (2005-2008) by the International Journal of Solids and Structures. In 2009, he was selected by the American Society for Composites as the recipient of the Outstanding Research Award and acknowledged with the Department of Mechanical Engineering Distinguished Career Alumni Award. In 2012, he was selected as a fellow of the American Society for Composites. In 2013 he was recognized as the co-recipient of the American Society for Civil Engineers Charles Pankow Award for Innovation. He was also one of only six individuals elected to the 2013 Society of Manufacturing Engineers College of Fellows. In 2015, he was one of four elected as a Fellow of SAMPE. In 2016, he received the Wayne W. Stinchcomb Memorial Award from the American Society for Testing and Materials. At CAMx 2016, his UD-CCM team and industry (BMW, NCMS) and government partners (National Highway Transportation Safety Administration) was selected as a Finalist for Unsurpassed Innovation Category for their project on Carbon Fiber Thermoplastic B-Pillars. Dr. Gillespie has also received numerous best paper and best presentation awards over the years.

In 2018, he was elected as a Fellow of SME. In 2019, his research team was selected as the recipient of the CAMX Award for Composites Excellence (ACE) in the Infinite Possiblity for Market Growth Category. In 2020, SAMPE slected his team as the recipient of the Delmonte Award for Innovation Excellence. Dr. Gillespie has also received numerous best paper and best presentation awards over the years.

Specialty Areas: Composites, processing, mechanics, design, interphase science, adhesion, joining, experimental methods.

Most Important Achievements

1) To meet the needs of industry, Dr. Gillespie led his research group to develop the co-injection resin transfer molding process. In this process, vacuum assisted resin transfer molding process was advanced to allow for the infusion and control of multiple resins through thickness of a composite preform in single step. The original application was the need for fire retardant resin such as phenolic to be infused with structural resins such as epoxy and vinyl ester to meet the flammability requirements for Navy topside structures and Army ground vehicle applications. A key to the success of the process was the incorporation of an impermeable barrier layer in the preform and the retention of excellent bonding of the dissimilar resins with this layer. This led to the invention of diffusion-enhanced adhesion, where thermosetting resins diffuse into thermoplastic barrier layers and cure leading to outstanding damage tolerance. These inventions were transferred to Navy industrial subcontracts and used in full-scale manufacturing demonstrations of the Director Room on Navy ships. These technologies were also transitioned to United Defense and used in Tank Automotive Research and Development Center's Composite Armored Vehicle Advanced Technology Demonstrator (a 22-ton all-composite combat vehicle). In this program, the damage tolerance of the interface was proven out through ballistic testing and 6,000 miles of durability testing of the vehicle. These two technologies were recognized by Assistant Secretary of the Army Anita Jones in Defense Basic Research—Rapid Transition from the Laboratory to the Field. This technology was one of only 17 examples of basic research recognized throughout the entire DoD. The science associated with these inventions led to many journal papers as well as receipt of the U.S. Army's Paul A. Siple Memorial Award, announced at the 21st Army Science Conference, for our research on processing of multifunctional armor materials.

2) A second highlight of successful transition of research and development into practice was Dr. Gillespie's research into induction processing of thermoplastic composite materials. In this project, basic research established the three important volumetric heat generation mechanisms resulting from the interaction of electromagnetic fields with continuous fiber thermoplastic prepreg. These studies established the foundation for the invention of new induction-based lamination processes. Process models were developed allowing for coil design to promote uniform heating in arbitrary laminate stacking sequences. Process models established in UD-CCM's thermoplastic tape placement process (another highlight) were adapted to optimize the consolidation process and to design the manufacturing equipment including sensors and control systems. Laboratory-scale equipment was built, and the process was proven out. The process was then hardened and transitioned to our industrial partner (Alliant Tech Systems) and integrated into their automated factory. Our automated induction-based laminator produced autoclave quality at production rates of 20ft/min leading to labor cost savings of nearly 40% by replacing more than 20 hand-lay-up vacuum debulk stations. This process has been a commercial success producing thick-section composites for the US Army for nearly a decade. This project resulted in multiple and patents and many high-quality publications in materials, processing and manufacturing. This project is an excellent example of bridging basic research to commercial success (TRL 1-9)

3) A third highlight of success transition of research and development was the development of the thermoplastic composite tow placement manufacturing for aerospace structures. This effort was funded as part of a DARPA program on affordable composites manufacturing and brought

DuPont, Hercules, NASA, Cincinnati Milacron and UD together. In this project UD-CCM was the prime, and Dr. Gillespie provided overall program management for the team as well as leading his research group. The original need was to develop a new manufacturing process for large-scale aerospace wing and fuselage structures using high-temperature thermoplastic composites to meet the demanding service environment of the high-speed transport. Today this process is highly desirable as an affordable out-of-autoclave manufacturing process. The vision was to marry DuPont's thermoplastic filament winding technology with Hercules thermoset fiber placement equipment. The technical challenge was to develop and commercialize new head technology with heating, consolidation and cooling capability to produce aerospace quality laminates without secondary processing. Dr. Gillespie's group focused on understanding the relationship between the process physics to final material part quality and properties. Comprehensive modeling and simulation of the tape placement process was conducted incorporating the effects of multiple passes on void reduction within tapes, the interdiffusion between tapes required to achieve full interlaminar properties and the final residual stress states including part-tool interactions. This project led to the design and fabrication of a laboratory-scale robotic head for processing trials and model validation. Later these models were used to optimize the head configuration for maximum throughput and over time this has culminated in a series of commercial heads sold originally by Cincinnati Milacron and more recently Accudyne Systems.

4) A fourth highlight was the development of composites for bridge infrastructure renewal that was funded by DARPA. Our team consisted of DelDOT, FHWA, DuPont Hardcore Composites and HCB. Dr. Gillespie and Dr. Mertz were the UD co-PI's. The project design and erected one of the first all-composite bridge on the federal highway system that met all State and Federal bridge requirements. The project received the State of Delaware Project of the Year Award in 1998. The project continued with the development of affordable manufacturing methods for composite girders for rail and bridge systems. Dr. Gillespie's research group worked closely with a bridge designer and inventor to turn a concept into full scale projection process for bridge girders up to 70 ft in length. The girders were tested at various length scales in the laboratory and proven out in the field on the nation's rail test track. The bridge systems have now passed all federal requirements and are commercially products. This project was selected as the recipient of the prestigious ASCE Charles Pankow Award for Innovation in 2013.

5) The fifth achievement is related to the management, leadership, impact and sustainment of the Center for Composite Materials at the University of Delaware. UD-CCM has achieved international recognition as a leader in composites education and research. Under Dr. Gillespie's leadership, UD-CCM has been designated a Center of Excellence by DOD (1996-2022) through multiple competitions throughout his tenure as Director and PI/co-PI of those programs. He has tripled the size of the research enterprise and nearly doubled the size of the laboratory space. He has successfully created a center where long term basic research by faculty and students and industry relevant applied research by research professionals are further matured leading to successful innovation and product development within a single organization. Dr. Gillespie has established over the past decade a shared research and development facility that spans TRL1-9. Our government funded Centers of Excellence combined with our strategic industry (University-Industry Consortium Application of Composite Materials to Industrial Products) and our academic partnerships with our collaborative research environment has resulted in a highly successful university-industry-government partnerships and successful transitions and commercialization of technology. This has been the key to long

term sustainment of UD-CCM as a soft-funded research center for more than 40 years.

6) A sixth achievement is the development of the Materials in Extreme Dynamic Environments (MEDE) program. UD-CCM along with Johns Hopkins University, California Institute of Technology, Rutgers and the Army Research Laboratory under the authority of MEDE Collaborative Research Alliance, joins experts from across the country to collaborate and help the US Army develop new lightweight materials to better protect soldiers and vehicles. The objectives of the MEDE program are to develop the technical and workforce capability to design, create, and optimize novel material systems that exhibit revolutionary performance in extreme dynamic environments. The objective is not necessarily to produce a specific material system that is optimized for a specific range of applications, but rather to produce a way of thinking that will allow the design of lightweight protective material systems that can be used for extreme dynamic environments. To achieve the MEDE program objectives, research activities are focused on a materials-by-design process for composite and polymeric materials involving a canonical model and a mechanism-based strategy. This involves the development of new computational tools whose predictive capabilities span length scales from the atomistic level to the macroscopic building block (single filament-yarn-single composite ply) as well as time scales ranging from 10-1-10-9 seconds. In order to obtain model input parameters and provide model validation, new experimental techniques are being developed to identify and quantify rate-dependent failure modes for both composite and polymer textile materials. The intent is that insights generated through this effort are used to guide the optimization of material composition (molecular architecture, fiber/Resin adhesion, composite microstructure) and process techniques to achieve new material systems with dynamic mechanical properties that significantly exceed those of the state of the art.This program brings the very latest cutting edge computational and experimental technologies to CCM's long history of a "Materials by Design" philosophy.

7) Most recent achievement, in coordination with the Defense Advanced Research Projects Agency (DARPA) our team developed a manufacturing process and facility to produce TuFF (Tailored Universal Feedstock for Forming. TuFF is a highly aligned discontinuous carbon fiber preform in thin-ply format which can be combined with thermoplastic or thermoset resins for prepreg or used in dry form for infusion-based manufacturing processes. A patented discontinuous fiber alignment and preforming process has been developed and implemented in a pilot facility at UD-CCM. The alignment process is fiber agnostic and TuFF preforms have been manufactured with aerospace grade fiber (IM7, T800), pitch carbon fiber, and recycled carbon fiber. Using discontinuous IM7 carbon fiber and Polyetherimide (PEI) thermoplastic resin, TuFF composites with aerospace quality requirements (‹1% voids, up to 63% fiber volume fraction) have demonstrated 100% translation of fiber stiffness and strength in tension, and >40% bi-axial in-plane strain capability during forming. The in-plane stretch ability of TuFF preforms enables conformability of simple planar preforms to complex geometries, eliminating the need for darting and complex ply patterns while minimizing associated scrap during composite layup. Closed-loop recycling and reuse strategies are possible for the first time with the ability to reuse fiber and preform scrap, prepreg scrap and recycled composite parts.

Publications: Summary

- 19 Book and Book Chapters
- 23 Patents
- 344 Refereed Journal Publications: 1978-2019
- 512 Conference Proceedings (also presented at Meetings): 1978-2019
- 86 Invited Presentations: 1986-2019

Specialty Areas: Composites, processing, mechanics, design, interphase science, adhesion, experimental methods.

Education

- Ph.D., 1985, Mechanical and Aerospace Engineering, University of Delaware
- M.M.A.E., 1978, Mechanical and Aerospace Engineering, University of Delaware
- B.M.E., 1976, Mechanical and Aerospace Engineering, University of Delaware

Experience

2019 to Present
Professor, Department of Electrical and Computer Engineering, University of Delaware

2013 to Present
Professor, Department of Mechanical Engineering, University of Delaware

2005 to Present
Named Donald C. Phillips Professor, Department of Civil & Environmental Engineering, University of Delaware

1999 to Present
Professor, Department of Civil & Environmental Engineering, University of Delaware
Professor, Department of Materials Science & Engineering, University of Delaware

1996 to Present
Director, Center for Composite Materials, University of Delaware

1998 to Present
Adjunct Faculty, Materials Science and Engineering Program, Tuskegee University

March 1989 to Present
Senior Scientist, University of Delaware

1996 to 1999
Associate Professor, Department of Civil & Environmental Engineering, University of Delawar

1994 to 1999
Associate Professor, Department of Materials Science & Engineering, University of Delawar

1990 to 1996
Associate Director and Member of Board of Directors, Center for Composite Materials, University of Delaware

February 1989 to 1994
Research Faculty Member, Materials Science Program, University of Delaware
Research Faculty Member, Department of Mechanical Engineering, University of Delaware

August 1986 to 1990
Assistant Director for Research, Center for Composite Materials, University of Delaware

September 1986 to July 1989
Research Assistant Professor of Mechanical Engineering, University of Delaware

January 1986 to March 1989
Scientist, University of Delaware

July 1983 to December 1985
Associate Scientist, Center for Composite Materials, University of Delawar

October 1981 to June 1983
Research Associate III, Center for Composite Materials, University of Delaware

Professional Awards

1. 2020 SAMPE Delmonte Award for Innovation Excellence – SAMPE North Amercia Awards Committee
2. CAMX Award for Composite Excellence (ACE): Infinite Possibility for Market Growth Category. September 2019.
3. Elected in May 2018 as SPE Fellow.
4. CAMX Finalist for Unsurpassed Innovation Category: Carbon Thermoplastic B-Pillars.
5. Wayne W. Stinchcomb Memorial Award from the American Society for Testing and Materials, "September 2016.
6. SAMPE Fellow Award in recognition of your extensive history of research support, technology advancement, individual mentoring and support of the society, June 2015.
7. Elected in 2013 to the SME College of Fellows.
8. Selected as co-recipient of the American Society for Civil Engineers 2013 Charles Pankow Award for Innovation.
9. Elected in 2012 as Fellow of the American Society for Composites.
10. 2009 ASC Outstanding Research Award; Quoting the Society guidelines: A nominee for the ASC Outstanding Research Award shall have made contributions to the science and technology of composite materials by way of analytical modeling, numerical modeling, design methodologies, and/or experimental work that have led to a greater understanding of the behavior of composite materials.
11. Distinguished Career Alumni Award, Department of Mechanical Engineering, University of Delaware, May 1, 2009.
12. 2004 American Composites Manufacturing Association Best of Show Award recognizing projects that are superior to all others in manufacturing, design, process innovation, and use of composite materials, November 2004.
13. Space Act Award, "Ceramic Composite Advanced Tow Placement (CCATP) Process: A Rapid Prototyping Technique for Continuous Fiber Reinforced Ceramic Matrix Composites," NASA Tech Briefs Magazine, September 2002.
14. Faculty Advisors Award, Society for the Advancement of Material and Process Engineering, 2001.
15. J. H. "Jud" Hall Composites Manufacturing Award of the Composites Manufacturing Association, Society of Manufacturing Engineers, 2000 Award recognizing outstanding contributions to the advancement of composites manufacturing.
16. ASCE Delaware Section Project of the Year Award: "Use of Glass-Fiber-Reinforced Composite Panels to Replace the Superstructure for Bridge 351 on N387A Over Muddy Run," February 1999.
17. Paul A. Siple Memorial Award: "Co-Injection Resin Transfer Molding for Optimization of Integral Armor," (with B. K. Fink and S. H. McKnight), 21st Army Science Conference, *Science and*

Technology for Army After Next, Norfolk, VA, June 15–17, 1998 recognizes best basic research contributions in U.S. Army.

18. "Defense Basic Research-Rapid Transitions from the Laboratory to the Field" recognized notable achievements by world-class scientists and engineers. Dr. Gillespie's research on Diffusion Enhanced Adhesion was selected as one of only 17 examples throughout the entire Department of Defense, May 1997.

Best Paper Awards

1. Best Paper Award. Proceedings of the Automotive Composites Conference & Exhibition, Society of Plastic Engineers, Detroit, MI, Sept. 5-7, 2018. Tamrakar, S., R. Ganesh, S. Sockalingam, J. W. Gillespie, Jr., "Determination of Mode II Traction Separation Law for S-2 Glass/Epoxy Interface Under Different Loading Rates Using a Microdroplet Test Method."

2. Outstanding Paper Award 2nd Place SAMPE 2015, Baltimore, MD, May 18-21, 2015 Zhang, D., D. Heider, and J. W. Gillespie, Jr., "Role of Prepreg Interlayer Permeability on Void Reduction During Oven Vacuum Bag Processing of Thick Section Thermoplastic Composites."

3. ASME Mechanisms & Robotics Committee Best Paper Award at the 39th Mechanisms and Robotics Conference, Boston, MA, August 4, 2015, J-H Park, S. Yarlagadda, P. Stegall, J. Tierney, S. K. Agrawal, S. Sharma, and J. W. Gillespie, Jr., "Wearable Upper Body Suit for Assisting Human Load Carriage."

4. Best Paper Award, presented at the 25th Annual Technical Conference, hosted by the University of Dayton, Dayton, OH, September 21, 2010, for paper presented at the 24th Annual Technical Conference of the American Society for Composite and the Canadian Association for Composite Structures and Materials, University of Delaware, Sept. 15-17, 2009, with B. A. Gama, T. A. Bogetti, and J. W. Gillespie, Jr., "Impact, Damage and Penetration Modeling of Thick-Section Composites using LS-Dyna MAT 162."

5. Best Paper Award 1st Place SAMPE 2005 Symposium & Exhibition (50th ISSE), Long Beach, CA, May 1-5, 2005 with B. A. Gama, S. M. W. Islam, M. Rahman, T. A. Bogetti, B. A. Cheeseman, C-F. Yen, and C. P. R. Hoppel, "Punch Shear Behavior of Thick-Section Composites under Quasi-Static, Low Velocity, and Ballistic Impact Loading."

6. Best Paper Award, Joining of Plastics & Composites Special Interest Group, ANTEC 98: "A Predictive Neural Network Controller for Thermoplastic Tow Placement," with D. Heider, and M. J. Piovoso, Society of Plastics Engineers, 1998.

7. Best Paper in the Body/Fuselage session: "The Role of Surface Preparation on the Performance of Metal to Polymer Adhesive Joints," (with S. H. McKnight and P. E. Bourban), 10th Annual ASM/ESD Advanced Composites Conference, November 7–10, 1994.

8. Best Paper in Track: "A Study of Improved Bonding Techniques for High Performance Thermoplastic Composites," (with R. C. Don and S. H. McKnight), Advanced Composites X: Proceedings of the 10th Annual ASM/ESD Advanced Composites Conference and Exposition, 1994.

9. Best Presentation: "Design, Analysis, and Hydrotesting of a Composite Cylinder Joint for Pressure-Hull Applications," (with S. M. Andersen, K. Newman, M. A. Lamontia and B. Olson),

ASTM STP on Compression Response of Composite Structures, November 1992.

10. Best Advanced Composites Paper: "Processing and Performance of Resistance Welded Thermoplastic Composites," (with L. J. Bastien and R. C. Don), 45th Annual Conference of the Composites Institute (SPI), February 1990.

Patents

1. Tierney, J., A. Vanarelli, D. Heider, S. Yarlagadda, J. W. Gillespie, Jr., "Aligned Discontinuous Fiber Preforms, Composites and Systems and Processes of Manufacture," Patent No. US 10,669,659 B2. June 2, 2020.

2. PR Cavanagh, TB Hurley, JJ Tierney, JW Gillespie Jr, Footwear orthotics, US Patent App. 29/484,188

3. Gillespie, Jr., J. W., J. Tierney, and N. Shevchenko, "Fuel Cell Net-Shape Molded Flow-Fields: Process Design and Optimization," Patent Disclosure Form (Req ID: 376650), Provisional Patent Application UD17-08, Serial Number 62/404,423, October 5, 2016.

4. DeLuca, M. J., C. J. Felker, D. Heider, G. Pandey, A. Abu-Obaid, E. T. Thostenson, and J. W. Gillespie, Jr., "System and Methods for use in Monitoring a Structure," U. S. Patent No. 9,329,021, May 3, 2016.

5. Heider, D., J. Dossmann, and J. W. Gillespie, Jr., "Composites Material Forming with Carrier Layer," Invention Disclosure No. UD16-16, October 14, 2015.

6. Yarlagadda, S., J. W. Gillespie, Jr., J. Tierney, and S. Sharma, "Wearable Upper Body Suit to Assist Load Carriage," Invention Disclosure No. UD16-13, September 18, 2015.

7. Gillespie, Jr., J. W., D. Heider, E. T. Thostenson, G. Pandey, A. Abu-Obaid, "Carbon Nanotube-based Sensing Skin for Real-Time Structural Health Monitoring," Provisional Patent Disclosure No. 13-0219, May 2013.

8. Cavanagh, P. R., T. B. Hurley, J. Tierney, J. W. Gillespie, Jr., "Footwear System with Composite Orthotic," Patent No. US D814, 161 S, March 4, 2018.

9. Gillespie, J. W., Jr., J. Tierney, N. Shevchenko, D. Heider, and D. Sandusky, "Composite Hockey Stick and Related Method of Manufacture," Provisional Application 61768640, UD13-09, February 25, 2013.

10. Nilakantan, G., J. W. Gillespie, Jr., and M. Keefe, "Ballistic Resistant Fabric Armor," Patent No. US 2010/0154621 A1. June 24, 2010.

11. Gerhard, J. K., E. J. Lynam, M. R. Shaffer, S. Yarlagadda, N. B. Shevchenko, B. K. Fink, D. Heider, J. J. Tierney, J. W. Gillespie, Jr., "Apparatus and Method for Induction Lamination of Electrically Conductive Fiber-Reinforced Composite Materials," U. S. Patent No.7,419,373 issued September 2, 2008.

12. Vaidyanathan, K. R., J. Walish, M. Fox, J. W. Gillespie, Jr., S. Yarlagadda, M. R. Effinger, A. C. Mulligan, and M. J. Rigali, ,"Continuous Fiber Reinforced Composites and Methods, Apparatuses,

and Compositions for Making the Same," U. S. Patent No. 6,899,777, issued May 2005.

13. Vaidyanathan, K. R., S. Yarlagadda, C. Green, G. J. Artz, J. W. Gillespie Jr., "Composite Components with Integral Protective Casings," U. S. Patent No. 6,935,594, issued August, 30, 2005

14. Gerhard, J. K., E. J. Lynam, M. R. Shaffer, S. Yarlagadda, N. B. Shevchenko, B. K. Fink, D. Heider, J. J. Tierney, J.W. Gillespie Jr., "Method for Induction Lamination of Electrically Conductive Fiber Reinforced Composite Materials," U. S. Patent Number 6,881,374, issued April 19, 2005.

15. Delanoy, C. and J. W. Gillespie, Jr., "Composite Carbon Fiber Material and Method of Making Same," U. S. Patent No. 6,759,352, issued July 6, 2004.

16. Bogetti, T., J. W. Gillespie, Jr., J. Tierney, S. Yarlagadda, and J. Clews, "Automated Tape Placement of Electrical Conductive Composites Using Localized Induction Heating," patent application filed September 29, 2004.

17. Fink, B. K., J. W. Gillespie Jr., E. F. Gillio, and K. R. Bernetich, "One-Step Resin Transfer Molding of Multifunctional Composites Consisting of Multiple Resins," U. S. Patent No. 6,048,488, issued April 11, 2000.

18. Fink, B. K., J. W. Gillespie Jr., and S. Yarlagadda, "Tailored Mesh Susceptors for Uniform Induction Heating, Curing, and Bonding of Method of Materials," U. S. Patent No. 6043469, issued March 28, 2000.

19. Gillespie, J. W. and M. Tanoglu "Dynamic Interphase-Loading Apparatus and Method of Using the Same," U. S. Patent No. 6778914, issued August 2004.

20. Don, R. C., J. W. Gillespie Jr., and S. H. McKnight, "Bonding Techniques for High-Performance Thermoplastic Compositions," U. S. Patent No. 5643390, issued July 1, 1997.

21. Howie, I., R. C. Don, J. W. Gillespie Jr., and S. T. Holmes, "Adjustable Hot Gas Torch Nozzle," U. S. Patent No. 5,626,472, issued May 6, 1997.

22. Crane, R. M., D. C. Loup, J. W. Gillespie Jr., S. M. Andersen, and D. D. Coppens, "High Damping Composite Joint for Mechanical Vibration and Acoustic Energy Dissipation," U. S. Patent No. 5573344, issued November 12, 1996.

23. Lambing, C. L. T., S. M. Andersen, S. T. Holmes, R. C. Don, B. S. Leach, and J. W. Gillespie Jr., "Apparatus and Method for Resistance Welding," U. S. Patent No. 5225025, issued July 6, 1993.

47. Gillespie, J. W. Jr., "Evaluation of the Embedded Spar Composite Design Concept," 1978 International Conference on Composite Materials, Toronto, Canada, 1978.

Service

University of Delaware

Professor, Department of Electrical and Computer Engineering, January 2019

Member, Board of Advisors, Tau Beta Pi, Delaware Alpha Chapter, 2017-2020.

Member, Mentors Committee (Zubaer Hossain), 2017-present.

Member, Awards Committee, 2017-2018

Member, Committee for Director for Additive Manufacturing, 2016

Member, UD Interdisciplinary Manufacturing Program, 2016

Member, Committee for UD Energy Institute, 2016

Member, Institute of Energy Conversion Working Group, 2016

Member, University Research Council, 2014-2015

Member, ME Alumni Relations Planning Team, 2013

Professor, Department of Mechanical Engineering, 2013

Member, Dean's Search Committee, 2012-2013

Member, College of Engineering Financial Levers Taskforce, 2012

Member, College of Engineering Faculty Senate, 2011-2012, 2012-2013, 2013-2014, and 2014-2015

Member, Chief Financial Officer Search Committee, 2010

Member, Deans' Cluster Search Committee on National Security, 2010.

Member, Dean's Cluster Search Committee on Composites, 2010.

Member, Organizing Committee for the Second Joint American – Canadian Conference on Composites - 2011

Member, Committee of Named Professors on Classified Research, July 2009

Member, Classified Research Task Force, June 2009

Member, Dean's Chair's Advisory Committee (DCAC), July 2008 - Present

Member, College of Engineering Strategic Planning Committee, July – Present

Member, Research Council, May 2008 - Present

Member, Dean's Search Committee, 2007-08

Director, Center for Composite Materials, 1996 – Present

Chair of the College Promotion and Tenure Committee, 2007 - 2009

Member, CEE Faculty Search Committee, 2006

Member, College P&T Committee, 2006-07

Coordinator, Science & Engineering Scholars Program Center for Composite Materials, 1982–Present

Member, Civil & Environmental Engineering Advisory Committee, 2001 – Present

Member, College of Engineering Dean's Advisory Committee, 2000 – Present

Department of Materials Science & Engineering representative, Educational Activities Committee, 1998 –Present

Member, Responsible Conduct of Research (RCR) Council, Office of Vice Provost, 2005

Member, Department of Civil & Environmental Engineering Undergraduate Committee, 2003-2004

Member, *ad hoc* Committee, Independent Review of Department Chair (Materials Science and Engineering), 2003

Member, College of Engineering Promotion and Tenure Committee, 1999 – 2003

Member, Search Committee, Director, Delaware Transportation Institute, 1999

Member, Technical and Scientific Advisory Group (TSAG), Delaware Transportation Institute, 1998 – 1999

Member, Search Committee, College of Engineering Dean's position, 1998 – 1999

Member, Department of Civil & Environmental Engineering Undergraduate Recruitment and Scholarship Committee, 1998–1999

Member, ABET Implementation Committee/Subcommittee on Civil Engineering, 1998 – 1999

ABET Review Committee, Department of Civil and Environmental Engineering, 1997–1998

Graduate Student Academic Advisor, Department of Materials Science and Engineering, 1997–1998

Member of the Center for Composite Materials Executive Advisory Board, 1995–1998

Chair, Administrator of Intellectual Property Search Committee, University of Delaware Office of the Vice Provost for Research, 1996

Member, Project Manager Search Committee, University of Delaware Office of the Vice Provost for Research, 1996

Associate Director, Center for Composite Materials, 1990–1996

Member, College of Engineering Dissertation Committee and Search Committees

Member Dissertation Committee:

Erich Weigert
Dan Su

Member, Tau Beta Pi - 1976

External

Member, Thermoplastic Composites Conference 2020

Member, International Scientific Committee, ICCM 23, Belfast Ireland August 1-6, 2021

Member, Mach Scientific Committee, 2020

Member, Technical Program committee of 35th ASC Conference on Digital Materials Design and Additive Manufacturing, Feb 29, 2020

Session Co-Chair, From Atoms to Armor: multiaxial dynamic impact mechanics of ballistic fibers and composites, MACH 2019 Conference, Annapolis, MD, April 3-5, 2019.

Session Co-Chair, Modeling and Characterization of Fiber-Matrix Interphase, MACH 2019 Conference, Annapolis, MD, April 3-5, 2019.

Member, International Advisory Body, International Conference on Processing and Characterization of Materials (ICPCM-2018), December 6-8, 2018 at NIT Rourkela.

Member, Consortium Management Committee for Materials for Extreme Dynamic Environment 2013 - Present

Member, Mach Scientific Committee, 2017

Member, Science Advisory Board, Mach Conference, 2016

Member, Board of Directors of the Composites Division of SPE, 2015 -

Session Chair, “Micro-scale models of polymers and composites”, Mach Conference, Annapolis, MD, April 8-10, 2015.

Member, Science Advisory Board, Mach Conference, 2015

Chair of the International Advisory Board for the Sixth World Conference on 3D Fabrics and Their Applications, North Carolina State University, Raleigh, NC, May 26-27, 2015.

Member, Science Advisory Board, Mach Conference, 2014

Member, Editorial Board of Fibers, 2013

Member, Science Advisory Board, Mach Conference, 2013

Member of Advisory Group for the Mayor’s Manufacturing Task Force on Evaluation of the State of Manufacturing, Philadelphia Industrial Development Corporation, 2013.

Member of Advanced Manufacturing Innovation and Skills Accelerator, Delaware Industrial Resource Center, 2013.

Member International Advisory Committee, Fifth World Conference on 3D Fabrics and Their Applications, Indian Institute of Technology, Delhi, India, December 16-17, 2013.

Member of Scientific Committee, Mechanics of Composites, Atlanta Georgia, June 8-11, 2014.

Member of Editorial Board of Journal of Materials, July 2012.

Academic panelist at SAMPE 2012 in Baltimore, MD, USA on May 21-24, 2012. Panel discussion on “New Breakthroughs, Future Materials, Preparing Students to Take the Lead – A Global Perspective”.

Member International Advisory Committee, Fourth World Conference on 3D Fabrics and Their Applications, RWTH Aachen, Germany, September 10-11, 2012.

Session Chair, 2011 International Fiber Symposium, sponsored by the Fiber Society, AATCC, and the National Textile Center, Charleston, South Carolina, October 11-13, 2011

Co-Chair of International Science Advisory Committee, Third World Conference on 3D Fabrics and Their Applications, Wuhan Textile University, Wuhan, China, April 20-21, 2011.

Member Scientific Advisory Committee, International Conference on Textile Engineering and Materials (ICTEM '2011) Tianjin, China, September 23-25, 2011.

Member Scientific Advisory Board, The Second Joint US-Canada Conference on Composites / 26th ASC Annual Technical Conference, Quebec, Canada, September 26-28, 2011

Member of Organizing Committee of Symposium on New Frontiers in Fiber Materials Science, Clemson University, 2011

Chair, External Advisory Board for NSF Next Generation Composite CREST Center, Southern University, 2010-2014

Member of Advisory Committee, Second Joint US-Canada Conference on Composite, 2010

External Advisory Group for the Composites CREST Center at Southern University, 2010

Member of Editorial Board, Journal of Materials Processing Technology, xxxx-2009

Member of External Advisory Board to the President of Owens Corning Ventures, 2009-.

Contributed to the Technical Advisory Group process of the Evolution of CEM Pulsed Alternators – EM Gun.

Co-Chair, 24th Technical Conference, American Society for Composites and the Canadian Association for Composite Structures and Materials, September 15-17, 2009.

Chair of the International Advisory Committee for the Second World Conference on 3D Fabrics and Their Applications, Greenville, South Carolina, April 2009.

Member of Editorial Board, Advances in Materials Science and Engineering, Hindawi Publishing, 2008 – 2014.

Co-Chair, TEXCOMP9, International Conference on Textile Composites, October 13-15, 2008, University of Delaware.

International Co-Chair, 13th US-Japan Conference on Composite Materials, Nihon University, Tokyo, Japan, June 6-7, 2008

Session Co-Chair, Multi-functional Composites, 13th US-Japan Conference on Composite Materials, Nihon University, Tokyo, Japan, June 6-7, 2008

Member of International Advisory Committee for the First World Conference on 3D Fabrics and Their Applications, Weston Conference Centre, University of Manchester, UK, April 3-4, 2008.

Member of Independent Review Team for Future Combat Systems, March 08.

Editorial Board, Research Letters in Materials Science, 2007.

Sugar Bowl Steering Committee for the Friends of Wilmington Parks and The Delaware Division of Parks and Recreation, 2005-2007.

Editor, *Journal of Thermoplastic Composite Materials*, 1993 – Present.

Chair, National Research Council, National Materials Advisory Board, Committee on High-Performance Structural Fibers for Advanced Polymer-Matrix Composites, 1998–2005.

Member, National Research Council, Commission on Engineering and Technical Systems, Board on Manufacturing and Engineering Design, 1999–2002.

Past President of the Technical Program Committee, Secretary and Member of the Steering Committee, Society of Plastics Engineers Special Interest Group on Joining of Plastics and Composites, 1990–2002.

Chair, Workshop of the National Academies, High Performance Structural Fibers for Advanced Polymer Matrix Composites, Washington DC, April 5-6, 2004

Session Chair, Defense Needs, Workshop of the National Academies, High Performance Structural Fibers for Advanced Polymer Matrix Composites, Washington DC, April 5-6, 2004.

Session Chair, Commercial Needs, Workshop of the National Academies, High Performance Structural Fibers for Advanced Polymer Matrix Composites, Washington DC, April 5-6, 2004.

National Research Council/National Materials Advisory Board Committee on New Materials for Advanced Civil Aircraft, 1994–1996.

Member, Scientific Committee Meeting on Mesomechanics, Montreal, Canada, August 1-4, 2005.

Chair, Materials, Composites and Nanotechnology Working Group, Strengthening the Mid- Atlantic Region for Tomorrow (SMART), Oct 2003 to present

Served as Member of Grey Beard Panel for Weight Reduction in Future Combat System NLOS Cannon and Mortar Vehicles - 2003

Panel Member of the Independent Assessment of the Future Combat Systems (FCS) Critical Manufacturing Technologies for the Deputy Assistant Secretary of the Army (Science and Technology) 2001 – 2002.

Member, Editorial Board, *International Journal of Environmental Technology and Management*, 2000 – Present.

Member, Editorial Board, *International Journal of Materials and Product Technology*, 2000 – Present.

Faculty Advisor, SAMPE, 2000 – Present.

Member, Selection Committee, Jud Hall Composites Manufacturing Award, SME, 2000 – Present.

Member, Executive Committee, ASEE Postdoctoral Fellowship Programs, 1999 – Present.

Adjunct Faculty, Materials Science and Engineering Program, Tuskegee University, 1998 – Present.

Member, International Committee, *Brazilian Journal of Materials Science and Engineering*, 1998 – Present.

Member, National Research Council (Transportation Research Board), National Cooperative Highway Research Program (NCHRP), Project D10-55, *Fiber Reinforced Polymer Composites for Concrete Bridge Decks*, 1998 – 2003.

Session Chair, ASC 2003 Technical Conference, Gainesville, FL, October 20-22, 2003.

Member, Local Scientific Committee, *Fourteenth International Conference on Composite Materials (ICCM-14): Global Composite Advancements-Bridging Academia and Industry*, San Diego, CA, July 14-18, 2003.

Member, Organizing Committee, *Sixth International Conference on Sandwich Constructions*, Fort Lauderdale, FL, March 31 – April 2, 2003.

Session Chair, "Composites Workshop," Leveraging Science and Technology Opportunities," *TechTrends 2002*, Baltimore, MD, 2002.

Co-chair, SME Third Composites Manufacturing and Tooling 2001 Conference.

Member, Executive Board, ARO Tuskegee University Research Consortium on Intelligent Resin Transfer Molding for Integral Armor Applications, 1995–2001.

Panelist, International Conference on Engineering Design and Automation: *Integrated Product and Process Design for Affordable Composite Structures*, Orlando, FL, August 1, 2000.

Member, Task Force for Development of Doctoral Program in Materials Science and Engineering, Tuskegee University/NSF CREST, 1997–2000.

Member, Programme Committee, ISATA 2000: Automotive and Transportation Technology, Dublin, Ireland, September 25–29, 2000.

Plenary Session Participant, 4th International Conference on Engineering Design and Automation, Orlando, FL, July 30–August 2, 2000.

Member, Programme Committee, 32nd International Symposium on Automotive Technology and Automation (ISATA), Vienna, Austria, June 14–18, 1999.

Member, International Advisory Board, Polymer Composites 99: International Symposium on Polymer Composites Science and Technology, Quebec, Canada, October 6-8, 1999.

Member, Programme Committee, 31st International Symposium on Automotive Technology and Automation (ISATA), Dusseldorf, Germany, June 2–5, 1998.

ASC Contact, ICCI '98 (Second International Conference on Composites in Infrastructure), Tucson, AZ, January 5–7, 1998.

Member, Programme Committee, 30th International Symposium on Automotive Technology and Automation (ISATA), Florence Italy, June 16–19, 1997.

Member, Executive Committee and Editor, American Society for Composites, 1990–1997.

Member, Militarily Critical Technology TARDEC Committee Composites for Ground Vehicles, 1995–1996.

Member, Programme Committee, 29th International Symposium on Automotive Technology and Automation (ISATA), Florence Italy, June 3–7, 1996.

Member, Technology Advisory Board for U. S. Army Composites Armored Vehicle–Advanced Technology Demonstrator (CAV–ATD) Program, 1994–1996.

Session Chairman, Joining, ANTEC 96, Indianapolis, IN, 1996.

Session Chairman, Composites for Infrastructure, Eleventh Technical Meeting of the American Society for Composites, Atlanta, GA, October 1996.

Session Chairman, Joining, ANTEC 95, Boston, MA, 1995.

Co-Chairman of the Technical Committee, ENERCOMP 95, International Conference on Composite Materials and Energy, Quebec, Canada, 1995.

Session Chairman and Organizer on Thermoplastic Composite Materials, Second International Conference on Composites Engineering, New Orleans, LA, August 1995.

Session Chairman, Joining, ANTEC 94, San Francisco, CA, 1994.

Session Chairman, Adhesives and Adhesion Promotion, 39th International SAMPE Symposium and Exhibition, Anaheim, CA, April 11–14, 1994.

Member of the Program Committee, 150th Anniversary of the State University Lvivska Polytecnica International Symposium, "Polymers at the Phase Boundary," Lviv, Ukraine, October 25–29, 1994.

Session Chairman, Processing, Joint CCM Research Symposium/ American Society for Composites Ninth Technical Conference, Newark, DE, September 20–22, 1994.

Session Chairman, Joining, ANTEC 93, New Orleans, LA, May 9–13, 1993.

Member of the U.S. Army Armament Research, Development and Engineering Center (ARDEC) Independent Design Review Panel of the 9 MJ Range Gun Compulsator Program at the Institute for Advanced Technology, University of Texas at Austin, Austin, TX, 1993.

Session Chairman, Joining, ANTEC 92, Detroit, MI, May 4–8, 1992.

Member of the Science Advisory Committee for the International Conference on Computer Aided Design in Composite Materials Technology, 1992.

Session Chairman, Processing, American Society for Composites Eighth Technical Conference, Battelle, Cleveland, OH, October 19–21, 1993.

Session Chairman, Processing, American Society for Composites Seventh Technical Conference, Penn State University, October 13–15, 1992.

Member of the Organizing Committee, CADCOMP 92, Third International Conference on Computer Aided Design in Composite Material Technology, University of Delaware, Newark, DE, May 13–15, 1992.

Session Chairman, Center for Composites Annual Research Symposium, September 16–17, 1992.

Session Chairman, American Society for Composites Sixth Technical Conference, RPI, Troy, NY, October 7–9, 1991.

Session Chairman, The Eighth International Conference on Composite Materials (ICCM/VIII), Honolulu, HI, July 15–19, 1991.

Panelist, Joints Session, Fourth Annual Thick Composites in Compression Workshop, Knoxville, TN, July 27–28, 1990.

Panelist, Fundamentals of Compression Session, Fourth Annual Thick Composites in Compression Workshop, Knoxville, TN, July 27–28, 1990.

Session Chairman, American Society for Composites Fifth Technical Conference, East Lansing, MI, June 1990.

Session Chairman, 21st International SAMPE Technical Conference, Atlantic City, NJ, September 25–28, 1989.

Panelist, “Manufacturing Thick-Section Composites,” Third Annual Thick Composites in Compression Workshop, Knoxville, TN, July 11–12, 1989.

Session Chairman, “Composites ’88,” Industrial Materials Research Institute, National Research Council Canada, Boucherville, Quebec, Canada, 1988.

Panelist, “Shaping & Expanding the Composites Skill Base in the ’90s,” 1988 SACMA Fall Conference, San Diego, CA, 1988.

Member, Task Force, Technology-Based Engineering Courseware Consortium, William C. Norris Institute, Minneapolis, MN, 1988.

Reviewer for Promotion and Tenure Committees:

- Professor Srikanth Pilla, Clemson University (Department of Automotive Engineering)
- Professor Hassan Mahfuz, Florida Atlantic University (Oceans Engineering Department)
- Professor Anwar Haque, University of Alabama (Department of Mechanical Engineering)
- Professor Adel Hammami, United Arab Emirates University (Department of Mechanical Engineering).
- Professor Raghavan Jayaraman, University of Manitoba (Department of Mechanical & Industrial Engineering).
- Professor John Henshaw, University of Tulsa.
- Professor Mehrdad Ghasemi Nejhad, University of Hawaii.
- Professor Su-Seng Pang, Louisiana State University.
- Professor John Whitcomb, Texas A&M.
- Professor Ranga Pitchumani, University of Connecticut.

Examiner on Ph. D Committees:

- Pramod Kumar, National Institute of Technology, "Investigation of Damping in Fiber Reinforced Composite Materials," Department of Mechanical Engineering.
- Bijan Derisi, Concordia University, "Development of Thermoplastic Composite Tubes for Large Deformation," Department of Mechanical and Industrial Engineering.
- T. Thomas, Tuskegee University, "Effects of Temperature and Strain Rate on Impact Response of Foam Core Sandwich Structures," MSE03.
- K. Kanny, Tuskegee University, "Effects of Viscoelasticity on the Flexural Fatigue Performance of Foam Core Sandwich Structures," MSE04.
- J. Wang, University of Buffalo, Department of Mechanical Engineering
- S. Mazumder, Concordia University, Department of Mechanical Engineering, Montreal, Canada.
- R. Chandra, Indian Institute of Technology, "Some Micromechanical Studies on Damping in Fiber-Reinforced Composites."
- Christophe Ageorges, University of Sydney, "Resistance Welding of Thermoplastic Matrix Composite Materials."
- Sachin O. Gajbhiye, Indian Institute of Technology, "Multiscale Dynamic Analysis of Carbon Nano-Structures and Nanocomposites."

Teaching and Advisement

Education Courseware

"Experimental Mechanics of Composites," ISC Educational Systems Interactive Videodisc Courseware, Subject Matter Expert and Instructional Designer, 1988.

"Strength and Failure of Composite Materials," Professional Development Continuing Education Linear Video Course on Composite Materials, Academic Computing and Instructional Technology and Continuing Education, University of Delaware, Newark, DE, 1988.

"Interlaminar Fracture of Composite Materials," Professional Development Continuing Education Linear Video Course on Composite Materials, Academic Computing and Instructional Technology and Continuing Education, University of Delaware, Newark, DE, 1988.

Courses Taught

"Experimental Mechanics" MSEG 667, 2007-2020.

"Mechanical Properties of Materials," MSEG 615, Spring 2003, 2005.

"Material Science for Engineers," MASC 302, Spring 2001, 2002, 2004 (140 undergraduates), 2006 (240 undergraduates)

"Special Problem in Material Science," MASS 466, Winter 2001, Summer 2005.

"Advanced Topics in Materials," MASC 811, Spring 2000.

"Civil Engineering Structures," CIEG 865, Spring 2000.

Special Problem: "Numerical Modeling of an All-Composite Bridge," CIEG 866, Spring 1999.

"Strength of Materials" CIEG 212, Spring 1999.

"Experimental Mechanics of Composite Materials" CEEG 467/667–MASC 466/666, Fall 1998.

"Special Problem in Composite Bridge Deck Characterization" CIEG 866, Spring 1998.

"Experimental Mechanics of Composite Materials" CEEG 667/MASC 666, Department of Civil and Environmental Engineering/Materials Science Program, University of Delaware, Fall 1997.

"Mechanical Properties of Materials," Materials Science Program, Fall 1995 and 1996.

"Experimental Mechanics of Composite Materials," Department of Mechanical Engineering, University of Delaware, Spring Semester 1989 and 1990 and Winter Session 1994.

Current & Completed Ph.D. Students

1. Paul Samuel, Ph.D.M.E.
2. Tania Lavaggi, Ph.D.M.E. (with Advani)
3. Christopher Scott Meyer, Ph.D.M.E.
4. Brandon Chen, Ph.D. M.S.E.
5. Munetaka Kubota, Ph.D.M.S.E.
6. Albraa Ali Jaber, Ph.D.M.E. (with Advanit)
7. Raja Ganesh, Ph.D.M.E.
8. Faheem Muhammed, Ph.D.M.S.E. (with Mirotznik)
9. Sandeep Tamrakar, "Characterization of S-Glass Epoxy Composite Interface Under Various Rates of Loading", Ph.D.C.E.E., 2018.

Past Students Now Teaching

1. Tong-Earn Tay – National University of Singapore
2. Mehrdad Ghasemi Nejhad - 1992 – University of Hawaii at Manoa
3. Ranga Pitchumani – University of Connecticut
4. Ulrich Hansen - 1996 – University of London, England
5. Dirk Heider – 1998 - University of Delaware – Electrical and Computer Engineering
6. Franklin Moon - 2000 – Drexel University
7. Metin Tanoglu - 2000 – Izmir Institute of Technology, Turkey
8. William Edberg - 2001 - University of Massachusetts Dartmouth
9. Guowei Ma, 2002 – Nanyang Technological University, Civil and Environmental Engineering
10. Bazle Zahurul (Gama) Haque – 2004 - University of Delaware – Mechanical Engineering
11. Myung-Keun Yoon, 2005 – South Dakota School of Mines
12. Francis Aviles, 2006 – Center of Scientific Research of Yucatan (CICY)
13. Alberto Ortona, 2007 – Ecole Polytechnique Fédérale de Lausanne (EPFL)
14. Nuri Ersoy, 2011 – Assoc. Professor, Mechanical Engineering Dept. Bogazici University, Istanbul, Turkey
15. Steven H. McKnight – 2014 – Professor, Virginia Tech
16. Shridhar Yarlagadda – Electrical and Computer Engineering
17. Ray Dagastine, Dept. of Chemical and Biomolecular Engineering, University of Melbourne, Australia
18. Subramani Sockalingam – 2017 – Mechanical Engineering, University of South Carolina

Science & Engineering Scholars

1. Jeffrey Bergman, “Graphical User Interface Development for Smart Fins: Piezoelectric Fin Control,” 2005.
2. Eric Busillo, 2004
3. Jennifer Pahnke, 2002.
4. Benjamin Rohner, “Fiber Optics Strain Measurement,” 2000-2001.
5. Michelle Choi (Imperial College), “Durability of the Carbon-Fiber/Vinyl-Ester Interphase,” 2000.
6. Amy Cummings, “Investigation of a Hybrid Composite Beam System,” 2000.
7. Brandon Fichera, “Influence of Moisture on Composites: Diffusion in Hygroscopic Expansion,” 1996–1997.
8. Scott Quirico, “Microstructure Property Relationships for In-Situ Thermoplastic Composites Manufacturing,” 1996–1997.
9. Jason Firko, “Induction Heating of Composites,” 1996–1997.
10. Scott Gilmore, “Numerical Solutions in Anisotropic Composite Materials,” 1984–1985.
11. Jeffrey Burmeister, “Testing and Analysis of Fluoropolymer Fabric Composites,” 1986–1987.
12. Robert Taylor, “Bearing Failure,” 1986–1987.
13. Laura McCarron, “Analysis of Injection Molding,” 1987–1988.
14. Ann Marie Sastry, “Influence of Constituent Properties and Geometric 601 Form on Behavior of Woven Fabric Reinforced Composites,” 1987–1988.
15. Roderic C. Don, “Ultrasonic Welding of Thermoplastic Composites Fiber/Matrix Interface,” 1988–1989.
16. William Eberle, “Three-Dimensional Reinforcement of a Composite T-Section,” 1990–1991.
17. John Bastianelli, “Fiber Placement of Thermoplastic Composites,” 1992–1993.
18. Loyd Burcham, “Accelerated Test Methodology for Thermal Aging,” 1992–1993.
19. Robert Foglesong, “Transverse Cracking of Composite Laminates,” 1992–1993.
20. Eric Wetzel, “Large-Scale Resistance Welding,” 1992–1993.
21. Matthew McBride, “Welding of Aluminum to Polypropylene Composites,” 1993–1994.
22. Darlene Gorton, “Robotic Fiber Placement of Thermoplastic Composites,” 1994–1995.
23. Chirag Mehta, “Durability of High-Performance Composites for High-Speed Civil Transport Applications,” 1994–1995.
24. Ahmed Monib, “Infrastructure Rehabilitation Using Composites,” 1994–1995.
25. Mark Scott, “Welding of Dissimilar Materials,” 1994–1995.
26. Ankur Parekh, “Rapid Placement Technology for Affordable Composites Manufacturing,” 1995–1996.

27. Eric Ramos, “Repair of Thick-Section Composites,” 1995–1996.
28. Kevin Stolfo, “Investigation of Ultrasonics for Field Inspection of Thick-Section Composites,” 1995–1996.
29. Aristedes Yiournas, “Structural Adequacy of Thick-Section Repaired Composites,” 1995–1996.

Current Research Professionals and Administrative Staff

1. Dr. Ahmad AbuObaid, Associate Scientist
2. Mr. Molla Ali, Research Technician
3. Dr. Sanjib Chowdhury, Associate Scientist
4. Dr. Joesph Deitzel, Sr. Scientist
5. Dr. Bazle Haque, Sr. Scientist
6. Dr. Dirk Heider, Asst. Director for Technology
7. Mr. Larry (LJ) Holmes, Asst. Director Additive Manufacturing
8. Mr. Munetaka Kubota, Research Associate II
9. Mr. Christian Marquina, Research Technician
10. Mr. John Morris, Research Technician II
11. Mr. David Roseman, Research Associate II
12. Dr. Steve Sauerbrunn, Thermal Analysis Engineer
13. Mr. Shashank Sharma, Research Associate
14. Dr. Nicholas Shevchenko, Manager Composite Technology
15. Dr. Pavel Simacek, Research Associate III
16. Mr. John Thiravong, Laboratory Coordinator II
17. Dr. John Tierney, Sr. Scientist
18. Mr. Alex Vanarelli, Research Associate II
19. Dr. Shridhar Yarlagadda, Asst. Director for Research
20. Dr. Thomas Cender, Postdoctoral Researcher
21. Dr. Sagar Doshi, Postdoctoral Researcher
22. Dr. Christopher Henry, Postdoctoral Researcher
23. Dr. Laure Moretti, Postdoctoral Researcher
24. Dr. Nithin Kaliyath Parambil, Postdoctoral Researcher
25. Dr. Keerti Prakash, Postdoctoral Researcher
26. Dr. JeJoon Yeon, Postdoctoral Researcher
27. Mrs. Heather Gordon, Sr. Sponsored Program Coordinator
28. Mrs. Corinne Hamed, Administrative Specialist
29. Mr. John Pollock, Accountant
30. Mrs. Kristen Scully, Administrative Assistant
31. Mrs. Therese Stratton, Business Administrator

Past Research Professionals and Administrative Staff

1. Dr. Patrick Dixon, Postdoctoral Researcher, 2020
2. Mr. Dan Molligan, Asst. Director Composite Engineering, 2020
3. Ms. Leah Stephens, Administrative Assistant, 2020
4. Mr. Jason Etherington, Comp Design Manager, 2020
5. Ms. Winona Burris, Research Technician II, 2020
6. Mrs. Robin Mack, Administrative Assistant, 2020
7. Mrs. Penny O'Donnell, Administrative Assistant, 2019
8. Mr. Stephen Durbano, Research Technician, 2019
9. Mr. Robert Morgan, Research Associate, 2019
10. Mr. William Adkinson, Sr. Materials & Process Eng, 2017
11. Mrs. Megan Hancock, Sr. Sponsored Program Coordinator, 2017
12. Mr. Michael Lourdemaria, Composite Design Associate II, 2017
13. Mr. William Patterson, Materials & Process Engineer, 2017
14. Ms. Jessica Sun, Research Associate II, 2018
15. Mr. Tulong Zhu, Sr. Composites Engineer, 2017
16. Dr. Narinder Khattra, Postdoctoral Researcher, 2017
17. Dr. Tong Li, Postdoctoral Researcher, 2017
18. Dr. Laksmanan Palanimuthu, Postdoctoral Researcher, 2017
19. Mr. Mark Davis, Composite Technician II, 2017
20. Mr. Ryan Jackson, Composite Technician, 2017
21. Mr. Bernard Schneiders, Composite Technician II, 2017
22. Mr. Jordan Wagner, Composite Technician II, 2017
23. Ms. Alison Wells, Composite Technician II, 2015
24. Mr. Michael Gilley, Composite Technician, 2014
25. Dr. Sergey Lopatnikov, Associate Scientist, 2014
26. Mrs. Moutushi Dey, Limited Term Researcher, 2014
27. Mr. Philip Rollins, Limited Term Researcher, 2014
28. Mr. Kenneth Wilkins, Laboratory Technician, 2014
29. Mr. Greg Kelly, Limited Term Researcher, 2014
30. Ms. Rachael Creighton, Composite Technician, 2014
31. Dr. Changsheng Shan, Postdoctoral Researcher, 2014
32. Mr. Philip Roach, Laboratory Coordinator, 2013

33. Mr. John Lewis, Laboratory Technician, 2013
34. Mr. David Fudge, Composite Engineer, 2013
35. Mrs. Kelly Mecca, Laboratory Technician, 2013
36. Mr. Anthony Thiravong, Research Technician II, 2013
37. Mr. Hope Deffor, Research Associate II, 2012
38. Dr. Arthur Levy, Postdoctoral Researcher, 2012
39. Dr. Gaurav Nilakantan, Limited Term Researcher, 2012
40. Mr. Pit Schulze, Research Associate, 2012
41. Dr. Sphurti Bhargava, Postdoctoral Researcher, 2012
42. Mr. Mark Scott, Limited Term Researcher, 2011
43. Mr. Augustus Mandrachia, Sponsored Program Processing Associate, 2011
44. Dr. Anton Kovalchuk, Postdoctoral Researcher, 2011
45. Dr. Anis Gawandi, Research Associate II, 2011
46. Mr. Christopher Arvanitelis, Limited Term Researcher, 2011
47. Dr. Sangguk Kang, Limited Term Researcher, 2011
48. Mr. Raymond McCauley, Limited Term Researcher
49. Mr. Jason McLaughlin, Limited Term Researcher, 2011
50. Dr. Madhwapati Prabhakar Rao, Limited Term Researcher, 2011
51. Mr. Leonard Hobbs, Manager
52. Mr. Stephen Andersen, Asst. Director for Military Programs, 2010
53. Mr. Kyle Brand, Limited Term Researcher, 2010
54. Mr. Adam DiNetta, Laboratory Technician, 2010
55. Ms. Olivia Polczyk, Research Associate, 2010
56. Mr. Denis Kissounko, Limited Term Researcher, 2010
57. Ms. Robin Sheffield, Records Specialist
58. Dr. Chunyu Li, Limited Term Researcher, 2009
59. Mrs. Kimberley Green, Sponsored Program Coordinator
60. Mr. Anthony Hendrickson, Limited Term Researcher, 2008
61. Mrs. Neelima Yarlagadda, Limited Term Researcher, 2008
62. Mr. Prakash Jadhav, Limited Term Researcher, 2008
63. Mr. Shawn Doherty, Limited Term Researcher, 2008
64. Mr. Jie Zhang, Limited Term Researcher, 2008
65. Mrs. Veronica Gamboa, Records Technician, 2008

66. Mr. Ajaya Nayak, Limited Term Researcher, 2008
67. Dr. Jiarun Xiao, Associate Scientist, 2007
68. Mr. Huseyin Denli, Limited Term Researcher, 2007
69. Mr. Hans Laudorn, Limited Term Researcher, 2007
70. Mr. Zaicheng Sun, Limited Term Researcher, 2007
71. Mr. Ashiq Quabili, Limited Term Researcher, 2007
72. Dr. Jeffrey Lawrence, Limited Term Researcher, 2007
73. Dr. Crystal Newton, Scientist, 2006
74. Dr. Aurimas Dominauskas, Research Associate III, 2006
75. Mr. Young Seok Song, Limited Term Researcher, 2006
76. Dr. Yuhong Zhang, Postdoctoral Researcher, 2006
77. Mr. Francis Aviles, Limited Term Researcher, 2006
78. Dr. Sukti Chatterjee, Limited Term Researcher, 2006
79. Dr. Amit Chatterjee, Research Associate III, 2006
80. Mr. Barry Pollock, Limited Term Researcher, 2006
81. Dr. Suvarchala Pogula, Postdoctoral Researcher
82. Dr. Hee June Kim, Research Associate II, 2005
83. Dr. Haifeng Chen, Limited Term Researcher, 2005
84. Mr. Md Jahirul Haque, Research Associate II, 2005
85. Dr. Weidong Li, Postdoctoral Fellow, 2005
86. Mr. Myung Keun Yoon, Research Associate II, 2005
87. Mr. Carl Krauthauser, Limited Term Researcher, 2004
88. Dr. Wei Li, Postdoctoral Researcher, 2004
89. Dr. Libo Ren, Postdoctoral Researcher, 2004
90. Mr. Saravana Kumar, Limited Term Researcher, 2004
91. Mr. Zhicheng Yu, Limited Term Researcher, 2004
92. Dr. Biswajit Chattopadhyay, Postdoctoral Fellow, 2003
93. Mr. Antonio Paesano, Limited Term Researcher, 2003
94. Mr. Kuang-Ting Hsiao, Limtied Term Researcher, 2003
95. Mr. Yongmao Shen, Limited Term Researcher, 2003
96. Dr. Guowei Ma, Postdoctoral Researcher, 2002
97. Mr. Saeed Ziaee, Limited Term Researcher, 2002
98. Dr. Stephane Mahdi, Postdoctoral Researcher, 2002

99. Dr. Mahmoud Dweib, Postdoctoral Researcher, 2001
100. Dr. Lorence Augh, Postdoctoral Fellow, 2001
101. Dr. Selen Ciftci, Postdoctoral Researcher, 2001
102. Dr. Gopalakrishnan Rajagopalan, Postdoctoral Researcher, 2000
103. Dr. Feiyi Pang, Postdoctoral Fellow, 1999
104. Dr. Brahim Tighiouart, Postdoctoral Researcher, 1999

Visiting Scholars and Interns

1. Maria Odila Hilario Cioffi, Visiting Professor, 2020-Present
2. Mark Davis, Visiting Researcher, 2017-Present
3. Lukas Fuessel, Visiting Scholar, 2018-Present
4. Nithinkumar Manoharan, Visiting Scholar, 2020-Present
5. Tekin Ozdemir, Visiting Scholar, 2019-Present
6. Kai Phouthavongsa, Visiting Researcher, 2019-Present
7. Tania Lavaggi, Vistiting Scholar, 2020
8. Sriragesh Thangraj, Visiting Scholar, 2020
9. Uday Balaga, Visiting Scholar, 2019-2020
10. Daniel Brighenti Bortoluzzi, Visiting Scholar, 2019-2020
11. Sinan Boztepe, Visiting Researcher, 2019
12. Alexander Gabriel, Visiting Scholar, 2019
13. Simon Hammer, Visiting Scholar, 2019-2020
14. Mert Hancioglu, Visiting Scholar, 2018-2019
15. Robert Sionkala, Visiting Scholar, 2019
16. Verena Gargitter, Visiting Scholar, 2017-2019
17. Jens Marchetti, Visiting Scholar, 2018
18. Estefania Zielinski Moura, Visiting Scholar, 2018
19. Barbara Righetti De Souza, Visiting Scholar, 2018
20. Olena Syerko, Visiting Scholar, 2018
21. Olena Syerko, Visiting Scholar, 2018
22. Soodabeh Sharafi, Visiting Scholar 2018
23. Ahamd AbuObaid, Visiting Professor, 2017-2018
24. Ricardo Mello Di Benedetto, Visiting Scholar, 2017-2018
25. Yi Geng, Visiting Scholar, 2016-2018
26. Tanja Arnolds, Visiting Scholar, 2017-2018
27. Matt Etchells, Visiting Scholar, 2018
28. Mert Hencioglu, Visiting Scholar, 2018-2019
29. Masoud Bodaghi, Visiting Scholar, 2017
30. Ghassen Brinis, Visiting Scholar, 2017
31. Georg Burkhardt, Visiting Scholar, 2017
32. Juan Carlos Canaza, Visiting Scholar, 2017

33. David de Haes, Visiting Scholar, 2016-2017
34. Sabrine Gharbi, Visiting Scholar, 2017
35. Mario, Golz, Visiting Scholar, 2017
36. Richard Haas, Visiting Scholar, 2016-2017
37. Chaima Hammi, Visiting Scholar, 2017
38. Wassim Khorchef, Visiting Scholar, 2017
39. Mohamed Lahmar, Visiting Scholar, 2017
40. Katia Nunes, Visiting Scholar, 2017
41. Ana Carolina Santos, Visiting Scholar, 2017
42. Oussama Saoud, Visiting Scholar, 2017
43. Rania Triki, Visiting Scholar, 2017
44. Ties van de Woord, Visiting Scholar, 2017
45. Rexhep Ajvazi, Visiting Scholar, 2016
46. Mohamed Henchir, Visiting Scholar, 2016
47. Meike Kollmannthaler, Visiting Scholar, 2016
48. James Maguire, Visiting Scholar, 2016
49. Ffion Martin, Visiting Scholar, 2016
50. Rodrigo De Sousa E Silva, Visiting Scholar, 2016
51. Maik Theissig, Visiting Scholar, 2016
52. Lutz Venhofen, Visiting Scholar, 2016
53. Katharina Resch, Visiting Scholar, 2015
54. Christian Vierkoetter, Visiting Scholar, 2015
55. Pavel Saieed, Visiting Scholar, 2015
56. Raphael Derop, Visiting Scholar, 2015
57. Julia Cavalheiro Rodrigues, Visiting Scholar, 2015
58. Jonas Dossmann, Visiting Scholar, 2015-2017
59. Jonas Hammer, Visiting Scholar, 2015-2016
60. Johannes Simons, Visiting Scholar, 2015-2016
61. Sinan Boztepe, Visiting Scholar, 2014-2015
62. Raphael Dill, Visiting Scholar, 2014-2015
63. Gabor Muenkel, Visiting Scholar, 2014-2015
64. Ewald Fauster, Visiting Scholar, 2014-2015
65. Frank Notten, Visiting Scholar, 2014-2015

66. Michael Victor, Visiting Scholar, 2014-2015
67. Zhe Gao, Visiting Scholar, 2014-2015
68. Fabian Bosch, Visiting Scholar, 2014
69. Dominic Dolan, Visiting Scholar, 2014
70. Beatriz Goncalves, Visiting Scholar, 2014
71. Breno Silva de Carvalho, Visiting Scholar, 2014
72. David McGlynn, Visiting Scholar, 2014
73. Jonathan Faull, Visiting Scholar, 2013
74. Hui-Yun Hwang, Visiting Professor, 2013-2014
75. Andrew Kennedy, Visiting Scholar, 2013
76. Jun Misumi, Visiting Researcher, 2013-2015
77. Roman Woznitza, Visiting Scholar, 2013
78. Gerhard Wischmann, Visiting Scholar, 2013
79. David Elfi, Visiting Scholar, 2013-2014
80. Mehmet Omer, Visiting Scholar, 2013
81. Dong Ju Lee, Visiting Scholar, 2012-2013
82. Clemens Buschhoff, Visiting Scholar, 2012-2013
83. Claire Daniel, Visiting Scholar, 2012-2013
84. Julia Schweiss, Visiting Scholar, 2012-2013
85. Wook Ryol Hwang, Visiting Scholar, 2012
86. Jens Zangenberg Hansen, Visiting Scholar, 2012
87. Lean Falk, Visiting Scholar, 2012
88. Andreas Nonn, Visiting Scholar, 2012
89. Maxime Leblanc, Visiting Scholar, 2012
90. Sinan Boztepe, Visiting Scholar, 2012
91. Metin Tanoglu, Visiting Professor, 2012
92. Clemens Buschhoff, Visiting Scholar, 2012
93. Abdullah Tugrul Seyhan, Visiting Professor, 2012
94. Martin Noll, Visiting Scholar, 2011
95. Juan Vico Rodriguez, Visiting Scholar, 2011
96. Ramon Tirschmann, Visiting Scholar, 2011
97. Ishita Biswas, Visiting Scholar, 2011-2013
98. Andrew Rider, Visiting Researcher, 2011-2012

99. Roman Weber, Visiting Scholar, 2011-2012
100. Sven Schneiders, Visiting Scholar, 2011-2012
101. Simon Hammer, Visiting Scholar, 2010-2011
102. Dominik Hanft, Visiting Scholar, 2010-2011
103. Christopher Lenz, Visiting Scholar, 2010-2011
104. Johannes Lutz, Visiting Scholar, 2010-2011
105. Daniel Kroll, Visiting Scholar, 2010
106. Johannes Feddersen, Visiting Scholar, 2010
107. Fabien Martinez, Visiting Scholar, 2010
108. Jamie Timms, Visiting Scholar, 2010
109. Hyoung Geun Kim, Visiting Scholar, 2009-2010
110. Christian Schoenborn, Visiting Scholar, 2009-2010
111. Wook Ryoul Hwang, Visiting Professor, 2009-2010
112. Claas Ehlbeck, Visiting Scholar, 2009
113. Sascha Berger, Visiting Scholar, 2008-2009
114. Omer Eksik, Visiting Scholar, 2008-2009
115. Kai Zweiacker, Visiting Scholar, 2008-2009
116. Arun Agrawal, Visiting Scholar, 2008
117. Laurent Garnier, Visiting Scholar, 2008
118. Veit Wodicka, Visitint Scholar, 2008
119. Damien Faudot, Visiting Scholar, 2008
120. Shashank Sharma, Visiting Scholar, 2008
121. Stephan Ritter, Visiting Schoalr, 2008
122. Chau Bui, Visiting Scholar, 2007-2008
123. Mira Reuter, Visiting Scholar, 2007-2008
124. Martin Finger, Visiting Scholar, 2007-2008
125. Olivia Polczyk, Visiting Schoalar, 2007-2008
126. Stefan Huber, Visiting Scholar, 2007
127. Limin Gao, Visiting Scholar, 2007
128. Anastasia Lorenz, Visiting Scholar, 2007
129. Aude Catry, Visiting Scholar, 2007
130. Nathan Depenbusch, Visiting Scholar, 2007
131. Hung-chieh Lo, Visiting Scholar, 2007

132. Stephan Mehling, Visiting Scholar, 2007
133. Praveen Pasupuleti, Visiting Scholar, 2007
134. Tristan Reitz, Visiting Scholar, 2007
135. Diana Scialom, Visiting Scholar, 2007
136. Richard, Teruya, Visiting Scholar, 2007
137. Michael Glowania, Visiting Scholar, 2007
138. Konstantin Friesen, Visiting Scholar, 2007
139. Luigi-Jules Vandi, Visiting Scholar, 2007
140. Nadin Vogel, Visiting Scholar, 2007
141. Timo Gebauer, Visiting Scholar, 2006-2007
142. Manoj Saraswat, Visiting Scholar, 2006-2007
143. Abdullah Tugrul Seyan, Visiting Scholar, 2006-2007
144. Christopher Baudron, Visiting Scholar, 2006
145. Jens Schuster, Visiting Scholar, 2006
146. Pierre Frey, Visiting Scholar, 2006
147. Vladimir Gendlin, Visiting Scholar, 2006
148. Julien Henau, Visiting Scholar, 2006
149. Fabian Klein, Visiting Scholar, 2006
150. Patrick Plitzner, Visiting Scholar, 2006
151. Gunner Hubel, Visiting Scholar, 2006
152. Susanna Laurenzi, Visiting Scholar, 2005-2006
153. Josef Mauer, Visiting Scholar, 2005-2006
154. Patrick Schauenburg, Visiting Scholar, 2005-2006
155. Erwan Istasses, Visiting Scholar, 2005-2008
156. Sebastian Scholz, Visiting Scholar, 2005
157. Bjorn Becker, Visiting Scholar, 2005
158. Nicolas Vernin, Visiting Scholar, 2005
159. Victor Bondiek, Visiting Scholar, 2005
160. Alex Mueller, Visiting Scholar, 2005
161. Christian Niggemann, Visiting Scholar, 2005
162. Maik Himstedt, Visiting Scholar, 2005
163. Dominik Bender, Visiting Scholar, 2004
164. Alex Mueller, Visiting Scholar, 2004

165. Charolette Corlay, Visiting Scholar, 2004
166. Sowmya Subramanian, Visiting Scholar, 2004
167. Christoph Bammann, Visiting Scholar, 2004
168. Peter Vancsa, Visiting Scholar, 2003-2004
169. Elisabeth Wolf, Visiting Scholar, 2003-2004
170. Achim Nickel, Visiting Scholar, 2003-2004
171. Oded Rabinovitch, Visiting Scholar, 2002-2006
172. Ralf Eigl, Visiting Scholar, 2002-2003
173. Michael Kurz, Visiting Scholar, 2002-2003
174. Susanna Laurenzi, Visiting Scholar, 2002-2003
175. Christian Reichert, Visiting Scholar, 2002-2003
176. Andre Haertelt, Visiting Scholar, 2002-2003
177. Tom Roida, Visiting Scholar, 2002-2003
178. Alexander Roshau, Visiting Scholar, 2002
179. Andre Jamnik, Visiting Scholar, 2002
180. Kazimieras Juzenas, Visiting Scholar, 2002
181. Jochen Krehl, Visiting Scholar, 2002
182. Tomas Cerniauskas, Visiting Scholar, 2001-2002
183. Leif A. Carlsson, Visiting Professor, Florida Atlantic University, Summer 2003-2008
184. Tomas Cerniauskas, Visiting Scholar, Kaunas University of Technology, “Evaluation of the Rapid Re-Formable Tooling for VARTM Processing”, 2001-2002
185. Klaus Kristian Engel, Visiting Scholar, Fachhochschule Kaiserslautern, “Intelligent VARTM Processing”, 2001-2002
186. Andre Jamnik, Visiting Scholar, 2002
187. Kazimieras Juzenas, Visiting Scholar, Kaunas University of Technology, “Ultrasonic Evaluation of VARTM Parts”, 2001-20002
188. Jochen Kreho, Visiting Scholar, 2002
189. Hongyun Li, Visiting Scholar, “CAV Integrated Hybrid Structures”, 2001
190. Jens Mueller, Visiting Scholar, Fachhochschule fur Technik Esslingen, MANTECH and ONR, 2001
191. Stephan Pressler, Visiting Scholar, Fachhochschule fuer Technik Esslinger, MANTECH, 2001
192. Hilko Siebels, Visiting Scholar, Universitaet Karlsruhe, CAV-IHS. 2001-2002
193. Jun Xiao, Visiting Scholar
194. Peter Bengstsson, Visiting Scholar, Ecole Europenne d’Ingenieurs en Genie des Materiaux, “Induction Based Processing of Carbon Thermoplastics”, 2001
195. Lisa Carlgren, Visiting Scholar, University of Lulea, CTC, 2001

196. Dominik Decker, Visiting Scholar, Beundesministerium fuer Verteidigung Ministry of Defense, MANTECH, 2001
197. Olivier Emeraud, Visiting Scholar, Universite de Bretagne Sud, “Intelligent VARTM Manufacturing”, 2001
198. Kati Flemmig, Visiting Scholar, Technische Universitat Dresden, “Porous Titanium Materials”, 2001
199. Thomas Gietl, Visiting Scholar, University of Bayreuth, “Metal Foam Development”, 2001
200. Cecilia Lauri, Visiting Scholar, University of Lulea, UDLP, 2001
201. Helene Le Houedec, Visiting Scholar, Universite de Bretagne Sud, “VARTM Processing and Testing of Composite Integral Armor”, 2001
202. Mariannick Roche, Visiting Scholar, Universite de Bretagne Sud, “Intelligent VARTM Manufacturing”, 2001
203. Gaelle Rodary, Visiting Scholar, “Binder Preform”, EEIGM, 2001
204. Bettina Spandl, Visiting Scholar, University of Bayreuth, “Metal Foam Development”, 2001
205. Martina Trahan, Visiting Scholar, University of Applied Sciences Kaiserslautern,” SMART Layer Fabrication Based on Fiberoptics”, 2001
206. Heike Fichna, Visiting Scholar, “Automated Resin Mixing for the VARTM Process”, 2000-2001
207. Jean-Etienne Fournier, Visiting Scholar, CAV Integrated Hybrid Structure, 2000-2001
208. Jurgen Gluch, Visiting Scholar, Powder Metallurgy, 2000-2001
209. Stephane Maniwczak, Visiting Scholar, 2000-2001
210. Georg Bedal, Visiting Scholar, Intelligent VARTM Testbed, 2000
211. Georg Burghart, Visiting Scholar, ONR, 2000
212. Florian Despang, Visiting Scholar, Technical University of Dresden, “Powder Metallurgy”, 2000
213. Daniel Schumacher, Visiting Scholar, 2000
214. Siegfried Zeh, Visiting Scholar, Acousto-Ultrasonice Set-up, 2000
215. Steffen Baumgaertner, Visiting Scholar, Implementing IR-Thermography, 1999-2000
216. Ismail Dagli, Visiting Student from Esslingen, Germany, VARTM Control, 1999
217. Boris Gourichon, Visiting Scholar, SERDP, 1999-2000
218. Lijun Han, Visiting Scholar, China, VARTM Processing, February 1999
219. Erik Hartlieb, Visiting Scholar, VARTM, 1999-2000
220. Christoph Hoffmann, Visiting Student, Aachen, Germany, completing master’s thesis on complex flow pattern analysis, February 1999
221. Marcus Knappe, Visiting Student from Esslingen, Germany, Nondestructive Acousto-ultrasonic Evaluation of Composites, August 1998–February 1999
222. Alfred Leibbrand, Visiting Scholar, VARTM, 1999-2000

223. Sophie Mangin, Visiting Student, Paris, France, Induction Heating /Through-Thickness Degradation Studies, March 1999
224. Harald Schuler, Visiting Scholar, VARTM, 1999-2000
225. Noel Tierney, Visiting Scholar, 1999
226. Juergen Wuest, Visiting Student from Esslingen, Germany Acousto-Ultrasound Measurements and NDE, March 1999
227. Geoffrey McKnight, Co-injection Processing, 1997–1998
228. Victor Avilés-Hernández, Visiting Student, University of Puerto Rico at Maguayez, (civil engineering, with Prof. Kevin Folliard), 1997–1998
229. Kin Liao, Durability of Glass/Vinyl Ester Composites, 1997
230. Josephina Diaz-Perez, Flow Sensing and Cure using SMARTweave, 1997
231. Shridhar Yarlagadda, "Induction Heating/Bonding of Composites," ARL Composite Materials Research Collaborative Program, 1996–1997
232. Andreas Eggert, University of Kaiserslautern, Germany, "Activity-Based Cost Analysis of Manufacturing Processes for the Composite Armored Vehicle," 1996
233. Bernhard Stieglmaier, Fachhochshule Polytechnic Munich, Engineering Physics, "Sensing and Control of Robotic Fiber Placement," 1996–1997
234. Itty Matthew, "Diffusion-Enhanced Adhesion," summer intern, CMR Program
235. Vasyl Kharik, "Interphase Mechanics," summer intern, CMR Program, 1996
236. Kessavan Potty, "Design and Analysis of Flexible Couplants," 1996–1997
237. Steven McKnight, "Joining of Dissimilar Materials," 1995–1996
238. Frank Woehrmann, "Robotic Fiber Placement," Institute of Osnabruck, Germany, 1995–1996
239. Veronique Monnard, "Processing and Characterization of Bonds Between Thermoset and Thermoplastic Composites," Ecole Polytechnique Federale de Lausanne, Switzerland, 1995–1996
240. Julien Dohuuduc, Ecole Polytechnique Federale de Lausanne, Switzerland, 1995
241. Andre Bals, Ecole Polytechnique Federale de Lausanne, Switzerland, 1995
242. Andreas Obst, "Mechanics of Composites," 1995–1996
243. Knut Krieger, "On-line Inspection Techniques for Void Content During Thermoplastic Tow Placement," Lehrstuhl fur Vebundwerkstoffe, TU Chemnitz–Zwickau, 1995
244. Birgit M. Bauer, Experimental Validation of Thermoplastic Tow Placement, University of Erlangen, Erlangen, Germany, 1994
245. Dirk Heider, University of Aachen, Germany, "On-line NDE Techniques for Thermoplastic Pultrusion," 1994–95; "Neural Network Based Control for Thermoplastic Tow Placement," 1995–1996
246. Nuri B. Ersoy, Ph.D. candidate, Department of Mechanical Engineering, Bogazici University, 1995
247. Eric Faude, "Fiber Placement Head Development," Student Exchange Program from Carl Duisberg Society, February–August 1993

248. Torsten Flemming, “Process-Induced Residual Stress and Warpage During Fiber Placement,” 1994

250. Xiaogang Huang, “Modeling Transverse Cracking in Composite Laminates,” 1992–1996

251. Chris Hoppel, “Mechanics and Failure of Thick Section Mechanics,” 1993–1994

252. Shen Zuwei, “Characterization of Transverse Cracking,” 1993–1994

Over 230 Undergraduate Research Assistants and Summer Interns, 1981 - 2020

1. Jennifer Pahnke, Science and Engineering Scholar, 2002
2. John Gillespie III, Summer Intern, 2002
3. Yanmin Zhang, Research Technician, 2002
4. Preethi Natarajan, Research Technician, 2002
5. Maxim Baldytchev, Research Technician, 2002
6. Jason Etherington, Research Technician, 2001
7. Oluseyi Olasupo Onawola, Summer Intern, 2002
8. Asadul Md. Haque, Research Technician, 2002
9. Marc Orgovan, Research Technician, 2002
10. Khammouane Dejvongsa, Research Technician, 2000-2002
11. Erica C Eckler, Research Technician, 2000-2001
12. Ashiq A Quabili, Research Technician
13. Rosa, Elvin O, Research Technician, 2001
14. Sean Devlin, Research Technician. 2001
15. John Yakubic, Research Technician, 2001
16. Benjamin Tang, Research Technician, 2001
17. John Fader, Research Technician, 2001
18. Ravi Prasad, Research Technician, 2001
19. Adrien Salomon, Research Technician, 2001-2002
20. Jordan Wagner, Research Technician, 2001
21. Saravana Kumar, Research Technician, 2001
22. David A Madanat, Research Technician, 2001
23. Yaqiang Ding, Research Technician, 2001
24. Theresa Gajewski, Research Technician, 2001
25. Matthew R. Charnik, Research Technician, 2000-2001
26. Martin Saliger, Summer Intern, 1998
27. Rajesh Hirandani, Summer Intern (TU), VARTM Controller, 1998
28. Nitesh Jadhav, Summer Intern (TU), VARTM SMARTweave, 1998
29. Aurelia Gardner, Summer Intern (TU), Ballistic Performance, 1998
30. Lesa Austin, Summer Intern, (TU) Cure Behavior, 1998
31. Makeba Atkins, Summer Intern (TU), Cure Behavior, 1998
32. Lilma dos S. Ribeiro, Summer Intern (DelDOT 896), 1998

33. David Henderson, Summer Intern, (DelDOT 896), 1998
34. Montri Dechasakulcom, Summer Intern (BIR), 1998
35. Sean Wells, Summer Intern (CMR), Induction-Based Repair, 1998
36. Matt Savage, Summer Intern (CMR), 1998
37. Peter Peno, Summer Intern, (CMR) Induction Robot Head, 1998
38. Binal Patel, Summer Intern, Coatings (CMR), 1998
39. Caroline Hurst, Summer Intern (CMR), 1998
40. David Daughton, Summer Intern (CMR), Metal Films on Polymers, 1998
41. Betsy Ablao, Summer Intern, Composite Modeling (CMR), 1998
42. Robert Plitko, Research Technician, Fabrication of Angle Bends Using SCRIMP, 1996
43. Rob Harbeson, Research Technician, Infrastructure Renewal, 1996–97
44. Jon Olin, Research Technician, Composite Infrastructure, 1996
45. Alyson Radel, Research Technician, Composite Infrastructure, 1996
46. Brian Revels, Research Technician, Composite Infrastructure, 1996
47. Darin Triolo, Research Technician, Composite Infrastructure, 1996
48. David Conway, Research Technician, Joining, 1996
49. Zeenab Razak, Research Technician, Robotics (FP/Induction), 1996
50. Raymond Foulk, Research Technician, Robotics (FP/Induction), 1996
51. Michael Rosner, Research Technician, SW/Sensor Data Visualization, 1996
52. Jason Tiffany, Research Technician, Autoclave Processing, 1996
53. Jason Pusey, Research Technician, RTM, 1996
54. Allyson Wilkes, Research Technician, Specimen Fab/Signature, 1996
55. James Elwood, Research Technician, A2/E3 Durability, 1996
56. Brian Richard, Research Technician, SCRIMP/Flow Control, 1996
57. Adam Martin, Research Technician, Induction Heating, 1996
58. Frank Puchino, Lab Technician, 1996
59. David Malotky, Lab Technician, 1996–97
60. Dewey Thomas, Lab Technician, 1995
61. Helen Yen, Lab Technician, 1995–96
62. Peter Wyatt, Lab Technician, 1995–96
63. Sagar Mathur, Lab Technician, 1995–96
64. Michael Lentz, Lab Technician, 1994–95
65. Christopher Lawler, Lab Technician, 1994–95

66. Dennis Brinley, Lab Technician, 1994–1995
67. Erdal Karamuk, Lab Technician, 1994
68. Kevin Perdue, Lab Technician, 1993–1995
69. Jay Iceman, Lab Technician, 1993
70. Clint Weslager, Lab Technician, 1993–94
71. Sherise Wood, Lab Technician, 1993 to 1994
72. John Franco, Lab Technician, 1993
73. Paul Franco, Lab Technician, 1993
74. Michael Tolin, Lab Technician, 1993–1994
75. Gary March, Lab Technician, 1993
76. Neil Garrett, Lab Technician, 1992–93
77. Bruce Rettig, Lab Technician, 1992–93
78. Scott Stuart, Lab Technician, 1992–93
79. Andy Schwartz, Lab Technician, 1992
80. Francis Mulvey, Lab Technician, 1992
81. Chris Mundis, Lab Technician, 1991–92
82. Jenny Sterba, Lab Technician, 1991–92
83. Scott Morin, Lab Technician, 1991–92
84. David O'Halloran, Lab Technician, 1991
85. John McGeehan, Lab Technician, 1990–91
86. William Eberle, Lab Technician, 1990–91
87. Scott Holmes, Lab Technician, 1989–90
88. Eric Tu, Lab Technician, 1989–90
89. Robert Pigford, Lab Technician, 1989–90
90. Eric Phillipe, Lab Technician, 1989
91. Robert Zachman, Lab Technician, 1989
92. Ian Howie, Lab Technician, 1989–92
93. John Stevens, Lab Technician, 1988–90
94. Mark Savarese, Lab Technician, 1988–89
95. Catherine Baron, Lab Technician, 1986
96. Bob Kaminski, Senior Research, 1986
97. Ed Ashmead, Senior Research, 1986
98. James Snowden, Software Development, 1985–87

99. Joel Garrett, Software Development, 1983–87
100. Brian Waibel, Software Development, 1983–87
101. Skip Shuda, Software Development, 1982–83
102. Gary Becht, Lab Technician, 1983–85
103. Dan Mongan, Lab Technician, 1983–85
104. Chris Rutz, Lab Technician, 1983–84
105. Roseanne Givler, Lab Technician, 1982–83
106. Melody Munson, Lab Technician, 1980–82
107. Steve Ellery, Lab Technician, 1981–83

Undergraduate Research Projects

1. Chad Daksha, “Parametrization of ReaxFF for S-glass using Genetic Algorithm and Machine Learning.”
2. Ka Lo Michelle Choi, “Durability of the Carbon-Fiber/Vinyl-Ester Interphase,” Imperial College of the University of London, 2000
3. Raymond Foulk, “Intelligent Control of Induction Heating,” Senior Thesis/Degree with Distinction Candidate, 99BSME
4. Z. Z. Wong, “Ultraviolet Curing of a GFRP Composite Based on Vinyl-Ester,” Imperial College of the University of London, 1997
5. Zeenab Razak, Imperial College of the University of London, 1996
6. Ahmed Monib, “Repair and Residual Strength of Thick Section Composites,” 96BSME
7. Andre Bals, “Thermal Degradation of Thermoset Composites,” Laboratoire de Technologie des
8. Composites et Polymeres, Ecole Polytechnique Federale de Lausanne, Switzerland, 1994
9. Julien Do Huu Duc, “Relaxation in Polyimide Composites,” Laboratoire de Technologie des Composites et Polymeres, Ecole Polytechnique Federale de Lausanne, Switzerland, 1994
10. Clint Weslager, “Mine-Blast Resistant Sandwich Structures,” 95BSME
11. Erdal Karamuk, “Induction Welding of Composites,” Laboratoire de Technologie des Composites et Polymeres, Ecole Polytechnique Federale de Lausanne, Switzerland, 1994
12. Beat Luthi, “Neural Networks for Thermoplastic Tow Placement,” Laboratoire de Technologie des Composites et Polymeres, Ecole Polytechnique Federale de Lausanne, Switzerland, 1994
13. Eric Wetzel, “Induction Bonding of Composites,” 95BSME
14. Paul Franco, “Joining of Glass/Polypropylene and Anodized Aluminum,” 94BSME
15. Scott Morin, “Transverse Cracking in Polymer Matrix Composites,” 93BSME
16. Ian Howie, “Resistance Welding of Dual Polymer Radel 8320/Polysulfone Composites,” 92BSME
17. John McGeehan, “Characterization of Processed Induced Void Content during Structural Reaction Injection Molding of Preforms,” 91BSME
18. Scott Holmes, “Three-Dimensional Reinforcement for Composite Structures,” 90BSME
19. Roderic Don, “Fusion Bonding of Thermoplastic Composites,” 90BSME
20. Jeffrey Burmeister, “Vibration Damping in Composite Laminate,” 88BSME
21. Tom Chapman, “Temperature and Strain Rate Effects on Mode II Interlaminar Fracture,” co-advised with R. B. Pipes, 86BSME
22. Ed Ashmead, “In-Situ Mode I Interlaminar Fracture,” 86BSME
23. Bob Kaminski, “Vibration Damping in Composite Laminates,” 86BSME

Design Projects

- Laser Measuring Device for Hygrothermal Growth Characterization in Composite Materials, sponsored by U. S. Army, 1997–98.
- Design of a Thermoplastic Composite Pressure Hull with Randy McCreary undergraduate intern at MIT, 1994.
- Artillery Resupplier with W. Grant Carboy III, William Everitt, Christopher Snodgrass, and Steve Viskocil sponsored by U. S. Army, 1993–94.
- Composite Pallet Program, with V. Basilio, A. Miller and D. Skinner, sponsored by U. S. Army, 1992–93.
- Composite Generator Housing, with I. Howie, J. Tompkins, J. Lambert and B. Burd, sponsored by U. S. Army, ASME Award Winner, (article included in *Mechanical Engineering Magazine*), 1991–92.
- Automated Resistance Welder, with R. C. Don, S. T. Holmes, S. M. Andersen and B. S. Leach, sponsored by Alcoa, 1990–91; ASME Award Winner; patent issued, 1993.

Continuing Education

- "Fusion Bonding," Annual CCM Composites Workshop, University of Delaware, Newark, DE, May 10–12, 1994.
- "Experimental Mechanics I and II," Annual CCM Composites Workshop, University of Delaware, Newark, DE, May 10–12, 1994.
- "Experimental Mechanics I and II," Annual CCM Composites Workshop, University of Delaware, Newark, DE, May 19–21, 1992.
- "Joining of Composites," Annual CCM Composites Workshop, University of Delaware, Newark, DE, May 19–21, 1992.
- "Experimental Mechanics I and II," Tenth Annual CCM Composites Workshop, University of Delaware, Newark, DE, April 22–24, 1991.
- "Joining of Thermoplastic Composites," Tenth Annual CCM Composites Workshop, University of Delaware, Newark, DE, April 22–24, 1991.
- "Residual Stresses in Composites," Tenth Annual CCM Composites Workshop, University of Delaware, April 22–24, 1991.
- "Experimental Mechanics of Composites," and "Interlaminar Fracture of Composites," ALCOA Technical Laboratories, Pittsburgh, PA, April 2–4, 1991.
- "Thermoplastic Composites," AIAA Composites Short Course, St. Louis, MO, April 20, 1991.
- "Mechanics of Composites," Tutorial on Composites, Sixth Annual ASM/ESD Advanced Composites/Exposition, Detroit, MI, October 8–11, 1990.
- "Experimental Mechanics of Composites," Tutorial on Composites, 6th Annual ASM/ESD Advanced Composites/Exposition, Detroit, MI, October 8–11, 1990.
- "Residual Stresses in Thick Section Thermosetting Composites," Center for Composite Materials Annual Workshop, May, University of Delaware, Newark, DE, May 1990.
- "Residual Stresses in Thermoplastic Composites," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1990.
- "Experimental Mechanics I," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, 1990.
- "Experimental Mechanics II," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1990.
- "Fusion Bonding and Welding of Thermoplastic Composites," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1990.
- "Experimental Mechanics of Composite Materials," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, 1990.
- "Interlaminar Fracture of Composites," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1989.
- "Strength and Failure of Composites," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1988.

- "Strength and Failure of Composites," DuPont Professional Course on Composite Materials, the Du Pont Company, April 1987.
- "Strength and Failure of Composites," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, 1987.
- "Basic Laminate Mechanics," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, 1987.
- "Interlaminar Failure: Characterization and Impact on Design," American Society for Composites/Center for Composite Materials Workshop, San Diego, CA, January 1987.
- "CCM Software for Composites Analysis and Design," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1986.
- "Strength and Fracture of Composites, Design Considerations," Center for Composite Materials Workshop, FMC Corporation, January, Santa Clara, CA, 1986.
- "CCM Software for Design of Composites: Solid Mechanics," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1985.
- "Microcomputer Software Workshop," Center for Composite Materials Annual Workshops, University of Delaware, Newark, DE, May 1984.
- "Finite Element Methods in Composite Analysis and Design," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1984.
- "Interlaminar Fracture in Compression," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1984.
- "Computer-Aided Design and Optimization Techniques," Center for Composite Materials Annual Workshop, University of Delaware, Newark, DE, May 1983.

Research Funding

Gillespie's Awarded Contracts and Grants: 1989-2020
Total Funding: $170M

Industrial Gift Funding: 1996-2020
Total Funding: $10.08M
